

MUREX CONSULTANT

CORE ACCOUNTABILITY

We are looking for a strong Murex Lead

The successful candidate will have a solid Murex technical knowledge with good functional knowledge.

The candidate will be the type of person who can thrive in a high pace, high intensity environment and be able to challenge stakeholders appropriately.

At Ktalysis, we hope you'll be inspired both by the work we do and the people who make it all happen.

PRIMARY RESPONSIBILITIES

You will be working in a global Murex support team so have to be a team player who is able to interact with users, traders and deal with any system issues

The projects vary in asset class so multi-asset class knowledge and Investment Banking experience is required

Own the client relationship and manage stakeholders around timings and issues

Skills include:

5+ years working in Murex

Strong knowledge of Murex 3.1 & MXG2000 (BO and FO)

Strong technical expertise in MXML, Datamart, Confirmations, Settlements, GOM

Good knowledge of Database SQL (preferably Sybase) and Unix Scripting

Functional experience should encompass any or all of the following asset classes: credit derivatives, interest rate derivatives, equity derivatives, fixed income, or FX

Please note that we have positions located in our offices of Montreal and Toronto.
